Enclosed is a copy of the video Joe Guthrie and Bill White took while in Colorado September 2001. The video has a lot of site work at LaCoste and Forbes. At counter number 225 (my VHS machine) you will find the Rubbermaid mini-trailer video. It runs for a few minutes. If you have a way to capitalize on the video for your ministry we will be happy to cooperate with you to make it happen. We understand you have a videographer who is putting something together. The CRSEF board is very interested in keeping your ministry viable and value your work very much.

Sincerely,

Bob Garbe
