> Joe asked me to write you a short note with a proposition for the future.<BR>

> He understands that you are considering the Paleontology graduate studies program at Texas Tech University in Lubbock. Joe would like to have you consider this as an option. Takecourse work at Texas Tech (in Paleontology), perhaps live in Crosbyton and work part time at the Mt. Blanco Fossil Museum. We are also sending this proposal to Philip Hall and Shantelle Lines. If it worked out the three of you might be able to share rides to Lubbock to help cut expenses.

> This option would allow you to receive formal academic education and real work experience in preparing molds, casts and actual museum experience. Please discuss this with your parents. If this is an idea that you feel merits further investigation please let us know.
