Be part of an historical paleontological dinosaur dig in Northwest Colorado. Experience working with a professional excavation team on one of the most productive dinosaur sites in the famous "Dinosaur Triangle" near Dinosaur National Monument. Discover what the Bible says about dinosaurs and the Great Flood as you engage the past in a real-life, hands-on adventure. Learn how to identify, collect, and interpret fossils from trained field experts who use a creation model. Now you can travel with Doug Phillips (who serves as adjunct faculty for the Institute for Creation Research), his family, and an experienced team of excavators from the Creation Studies Institute on a once-in-a-lifetime fossil dig! This four day adventure dig includes touring the National Dinosaur Monument and Museum, fossil hunting in Cowboy Canyon, and two days of dinosaur excavation. \$995 per person. Price does not include transportation, lodging, or all meals. Group size is limited to 30 people. Children must be at least ten and be accompanied by an adult to do a full excavation. THE GREAT DINOSAUR MYSTERY SOLVED!

By Ken Ham

The Great Dinosaur Mystery

SOLVED!

The Great Dinosaur Mystery is a cutting-edge book by Ken Ham, filled with engaging illustrations and written for the Christian layman. It addresses all the latest discoveries and dinosaur trivia from a distinctively biblical perspective while answering key questions concerning what really happened to the dinosaurs. Special attention is given to the Tyrannosaurus Rex, Plesiosaurs, Pteradons, Stegosaurs, Triceratops, as well as biblical and historical studies of behemoth, leviathan, and dragon legends. Readers will learn to distinguish

... what we really know about dinosaurs vs. what evolutionists believe about them. This book is great for teenage children and ... 204 pgs. Paperback. **33054-73** | \$12
